Allowable Subject Matter

Claims 12-19 and 21-26 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 12 and 13: None of the prior arts either alone or in combination fairly teach or suggest a liquid crystal display device comprising a first optical film having a refractive index relationship of $n_x = n_y > n_z$ is arranged between the light crystal cell and a first retardation plate and a second optical film having refractive index relationship of $n_x = n_y < n_z$ is arranged between the first retardation plate and the first polarizer, wherein the first retardation plate is

arranged between the liquid crystal cell and the first polarizer and having a retardation in a plane ob not less than 120 nm and not more than 160nm. Therefore, claims 12 and 13 are deemed non-obvious and inventive over the prior arts, thus are allowed.

As to claims 14-19 and 21-26: Since claims 14-19 and 21-26 depend either directly or indirectly on the allowed claims 12 and 13, therefore, are also allowed.
